

PANORAMA  
HEIGHTS  
PRESCHOOL

## **+** We nurture and educate the children of our community and empower them through play and positive relationships

We work to build secure, trusting and friendly relationships with each child and actively engage with families, involving them in their child's education.

Our educators support children to explore and develop their own interests across our rich program, and to make choices and decisions that influence events and their world. Our flexible program is play-based, inclusive and underpinned by intentional teaching.

We are committed to providing a safe environment; actively considering each child's mental and physical wellbeing and supporting them to build resilience.

Panorama is community minded and run by a Committee of parents. Our program includes incursions and excursions, and a range of family-friendly social opportunities to nurture

a sense of belonging for our families.

Our curriculum values and reflects the diverse cultures, practices, values and beliefs of our families and the broader community. We are committed to equality and believe every child is capable regardless of their different circumstances and abilities.

Our team are professional, experienced and passionate educators. They go above and beyond to support our children's learning and development.

We deliver a high quality program and aim for continuous improvement – our kids deserve the best.
